

Valoneecia Tolbert is 🤔 feeling thoughtful with Rudy Ramirez and 3 others at 📍 The VORTEX.

I saw Underground last night written by [Lisa B. Thompson](#) and directed by [Rudy Ramirez](#). As a human, we know the show is fantastic, but as a black woman who often struggles with the two sides of my brain, which I will now call "Mason" and "K", it's brought so many internal struggles to surface and showed me that my internal struggles were not just mine alone. I'm still digesting this powerful piece of work that was so intimately and completely played by [Jeffery Johnson](#) and [Marc Pouhé](#) so I will leave the analysis to greater minds..but this play is truly a must see. Thanks for doing the damn thing.
